

DAYTONA

TURF TYPE TALL FESCUE

- ◆ *Top rated deep, dark green color*
- ◆ *Excellent turf quality*
- ◆ *Highly rated drought tolerance*
- ◆ *Improved brown patch resistance*
- ◆ *Sun or shade lawns*

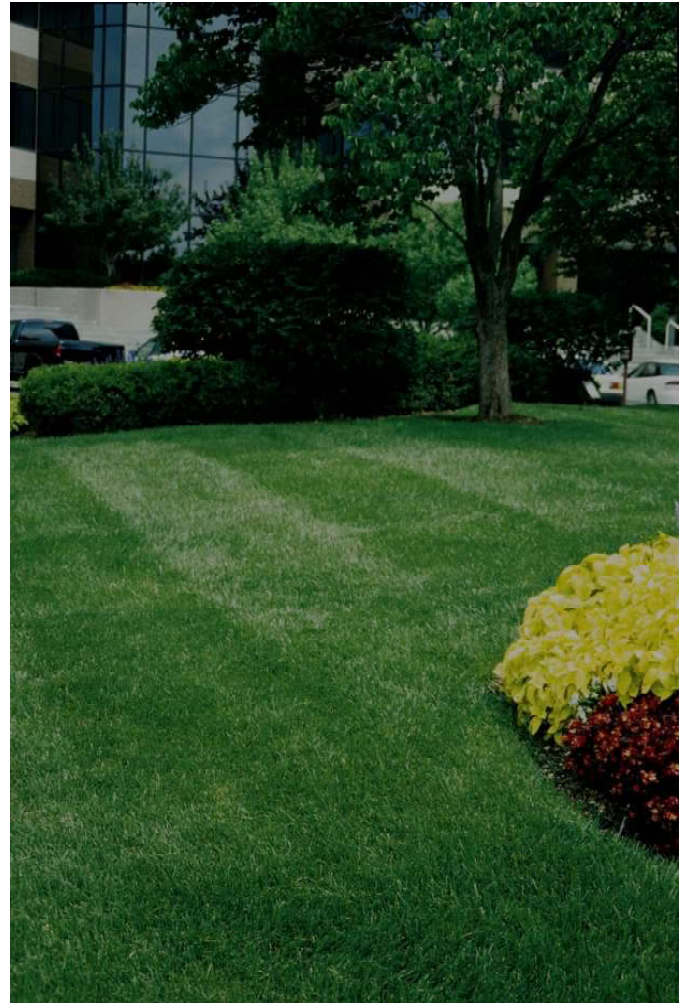

DAYTONA tall fescue is a fine performer among the turf type tall fescues. DAYTONA turf type tall fescue is earlier to green up and has a improved spring and summer density in turf trials. It has a deep and rich green color, matching well with other darker elite Kentucky bluegrasses, ryegrasses, tall and fine fescues in mixtures or alone in a monostand.

In recent NTEP studies, DAYTONA ranked in the top twenty five out of over 160 varieties in drought tolerance. It has excellent heat tolerance, germinates and fills in quickly. DAYTONA provides an durable lawn area for homes, parks, athletic fields and golf roughs, slopes or bunker facings where water is limited.

The variety has very good adaptability in hot and humid locations around the USA. In recent NTEP studies conducted, DAYTONA is among the leading tall fescues in quality judged by its dark green color and warm weather brown patch disease resistance. DAYTONA performs best in management when mowed at recommended heights of one and one half to three inches.

Try some DAYTONA turf type tall fescue. You will be impressed with the results and excellent turf quality.

New Lawns: 8# per 1000 square feet
Overseed: 4# per 1000 square feet
